Lava From Vesuvius Still
Flowing Toward
Boscotrecase

FIRE IS RISING 1000 FEET

VILLAGERS FLEE FROM TOWNS AND
PRAY FOR DELIVERANCE

Scene Last Night Was One of Mangled
Grandeur and Horror—Volcano
Very Active.

(Bulletin.)

Naples, April 7.—The Matin says that craters have opened on Mount Vesuvius, some opposite to Naples.

Naples, April 7.—The continued activity of Mount Vesuvius is proving extremely dangerous. If rain should follow before the dust disappears all vegetation will be destroyed. The villagers are panic stricken. The lava continues to flow steadily towards the village of Boscotrecase today.

The churches are crowded with people praying for deliverance from an impending peril, manifestations of which are heard and felt in explosions and in tremblings of the earth which are constantly recurring.

The main stream of lava proceeding from Vesuvius is 200 feet wide and it advances at times at the rate of 21 feet in a minute, the intense heat destroying vegetation before the stream reaches it. Women weeping with fright, carried a statue of St. Anne as near as they could to the flowing lava, imploring a miracle to stay the advance of the consuming stream.

The cemetery at Boscotrecase has been invaded by the lava. The scene at night is one of mingled grandeur and horror as from the summit of Vesuvius there leaps a column of fire fully a thousand feet in height. Occasionally masses of molten stone, some weighing a ton, are ejected from the crater.

The village of Torre del Graco which has been eight times destroyed and as often rebuilt, is again threatened.

SALE OF NEWARK WATER WORKS

Ordered by the United States Court
in Suit Brought by Eastern
Bond Holders.

In the United States court at Cincinnati Friday afternoon Judge Thompson made permanent a decree which he granted conditionally on March 6 upon the petition of the bondholders of the Newark, Ohio, Water company, for the sale of the local water plant.

Last December, the Farmers' Loan and Trust company, of New York, filed a suit in the United States court, to foreclose the mortgage on the plant. This company was the heaviest bondholder and the suit was instituted on its behalf. At this time, Harry H. Baird of Pataskala, was named as receiver.

A conditional default decree was made in favor of the bondholders by the court in default of defense. Friday this decree was made permanent. The court empowered the receiver, as master commissioner, to sell the property at public sale after due advertisement, the sale to take place at the court house in this city about the middle of May.

Fred M. Back, one of the attorneys, stated to the Advocate that there are no Newark bondholders in the plant and that no Newark people are interested financially in any way in the suit.

It is probable that the bondholders will get together and bid the plant in in order to protect their investment. There has been some considerable speculation as to whether the Board of Public Service would bid on the plant. But the Board has no power whatever to do this and there is no money which they could use for this purpose.

Receiver Baird was in Columbus Saturday filing his first report with the United States court.

WEATHER PREDICTION.
The weather forecast for Newark and vicinity: Cloudy and warmer to night; Sunday showers and warmer.

SMITH WANTS TO SUCCEED ALGER

Washington, April 7.—William H. Smith, fifth Michigan district representative, today announced his candidacy to succeed Senator Alger, who on account of ill health, will not succeed himself.

THE IRONY OF FATE

St. Louis, April 7.—Dr. C. A. Snodgrass, health commissioner of St. Louis, died from pneumonia yesterday. A week ago he completed a paper on the causes and treatment of pneumonia, which he was to have read before a society of physicians, and half an hour later pneumonia developed.

LATE STRIKE NEWS

New York, April 7.—Mr. Mitchell today denied that he was for anthracite but not bituminous arbitration. He said the situation in the soft coal district is satisfactory.

Cleveland, O., April 7.—The Ohio bituminous operators today resolved they would not make an adjustment of their differences with the miners except on a basis of the scale and conditions effective April 1 or by arbitration.

Indianapolis, Ind., April 7.—The first week of the strike in Indiana as reported to the district officers today finds 19 percent of the total tonnage of the state signed up and working on the 1903 scale.

New York, April 7.—Representatives of the anthracite coal roads and independent companies will meet here today to give final consideration to Mitchell's proposition of arbitration of the differences in the anthracite mining industry and to draft a reply for presentation at the joint meeting of the operators and miners Monday.

Huntington, April 7.—The strike order had no effect in West Virginia. Never in the state's history was more coal mined than at present. There is practically no miners' organization outside the Kanawha coal field, and even there the order is not being obeyed.

DIRECTORS OF COUNTY FAIR HOLD MEETING

The Licking County Agricultural Society held its annual meeting Saturday. Plans for the fair were discussed fully and committees were appointed. The granting of the free scholarship to the State School of Agriculture and Domestic Science of O. S. U. was deferred until the next meeting.

The heads of the different departments are as follows: A. D. Burnside and E. O. Mitchell, the department of horses; J. F. Lock, cattle; H. H. Baird, sheep; S. J. Parr, swine; W. H. Kussmaul, fine arts; T. W. Shannon, farm products; R. L. Patton, poultry and farm implements; F. B. Dudgeon, superintendent of gates; H. H. Simmons, superintendent of police; George R. Taylor, general superintendent of grounds.

Again this year, as last, the educational department will be a feature of the county fair.

Among other things discussed by the society was their proposition to erect several new buildings.

A representative of a hedge and wire fence firm was present and explained to the members the advisability of having a hedge and wire fence erected around the fair ground. No definite action was taken.

The revision of the premium list was taken up and the revised list was adopted by the society.

AMERICANS ROBBED.

Hong Kong, April 7.—Three passenger boats were held up by pirates 11 miles from San Hing City and it is reported that an American missionary on board was robbed.

Hong Kong, April 7.—The American missionary who was robbed, is Dr. Charles B. Hager, who stated that his boat was anchored off a village on the Tung river.

NEITHER SIDE CONFIDENT.

Washington, April 7.—The real reasons that no agreement has yet been reached for a vote on the railroad rate bill in the senate is that neither side as yet feels confident of having enough votes to win. There are 25 active Republicans in the senate and 33 Democrats—88 votes.

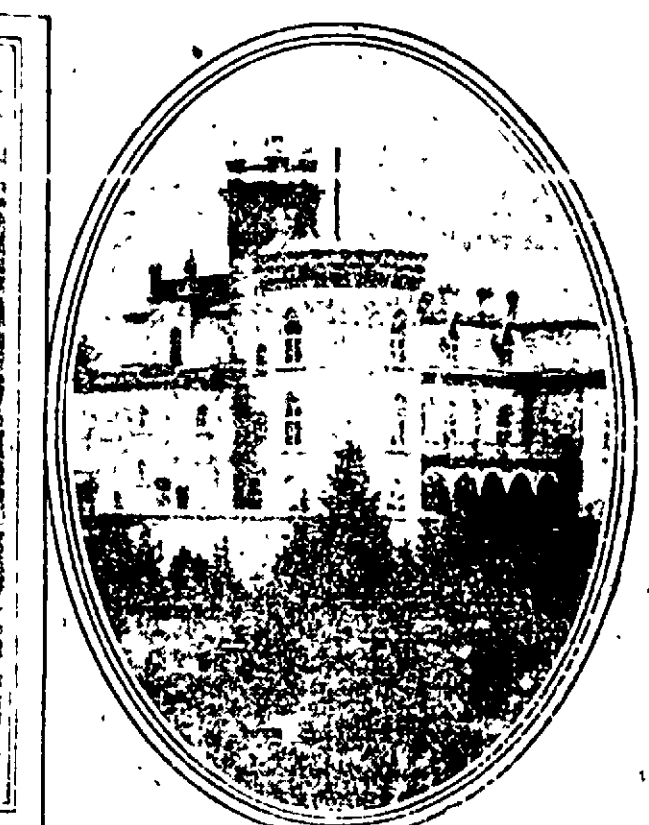

RUSSIAN BARON UXKULL WHO VISITS AMERICA IN INTEREST OF BAPTIST UNION OF RUSSIAN EMPIRE HAS BEEN PERSECUTED FOR YEARS BY POLICE

Baron Uxkull

New York, April 7.—Baron Waldeemar Uxkull, of Russia, who is making a tour of America in the interests of the Baptist Union of Russia, began his series of lectures this week in Hoboken. Although he is a nobleman with a castle and an estate of 60,000 acres, he has been persecuted for years by the police. Three times he has been sentenced to jail for holding religious meetings. His wealth has saved him from serving behind the bars, but to be a Baptist has cost him a large sum.

Despite the fact that even his family, which is one of the most historic

Baron Uxkull's Castle

and influential in the country, turned young American missionaries go to against him, he has built three Baptist churches from his private income. There is not a Baptist church in Russia today, he says, but there is a wonderful field for labor. The mass to tell of religious persecution which is all religious meetings eagerly object is to stir up interest among the Baptist people of America for the people of Russia. There are 60,000 of one belief, he says, and they have very few ministerial churches. One minister covers a territory of more than six hundred square miles. The Baron would like to see some of the things that are going on in the country.

WARRANT ISSUED FOR DR. TAYLOR

BUT DEFENDANT SAYS HE HAS
NOT VIOLATED THE
STATE LAW

Hearing is Set for Next Friday Afternoon, April 13, Before Mayor McCleery.

A warrant was issued in Mayor McCleery's court Friday afternoon and was served Saturday morning, on an affidavit of George H. Matson, acting secretary of the State Board of Medical Registration and Examination, at Columbus, charging A. A. Taylor, a neuro-magnetic healer, with practicing medicine without first complying with the provisions required by the state.

Dr. Taylor has an office on East Main street, near Front. The affidavit charges that on or about September 1, 1905, the doctor prescribed and recommended treatment for Mrs. John Wagenheim of this city, charging a fee of \$1.

Chief of Police James Sheridan brought the doctor before Mayor McCleery and he pleaded not guilty to the charge as brought in the affidavit. His hearing was set for Friday afternoon, April 13. He was released under bond in the sum of \$100. Dr. Taylor retained Attorney George B. Smythe as counsel.

Speaking to the Advocate Saturday, Dr. Taylor said that he had not violated the law as he had prescribed no medicine but had treated his patients according to the neuro-magnetic method, and would continue to practice in this city.

J. H. Hickman was sworn in as a special officer and night watchman for the Wehrle company at their plant in West Newark.

Two plain drunks were arraigned before the mayor Saturday morning in police court.

Mr. Worley, a son of the market master, has filed his application with the public safety board for their position as dog catcher. This is the first application received for that position.

On affidavit of H. M. Smith made before Justice Lake, Carl Hagerty and William Smith were arrested for train riding on the P. C. & St. L. railroad. They were each fined \$1 and costs, which was paid.

IS GORKY COMING?

Washington, April 7.—The bureau of immigration states that it has no information which would bear on the report that Maxim Gorky, the Russian revolutionist and author, is on his way here. Commissioner General Sargent declares that Gorky will be treated the same as other alien coming here unless evidence is produced justifying his detention.

Prussia's minister of public works has ordered that in future engineers and firemen on the state railways must be totals abstainers.

FOREIGN CAPITAL IS INTERESTED

IN CONSTRUCTION OF PROPOSED
NEWARK, MARYLAND &
WYOMING ROAD.

Necessary Papers Said to Have Been
Sent to England For Approval
of Parties There.

So far as can be learned, there is very little new in the developments of the Newark, Maryland and Maryland & Virginia road.

One of the parties interested stated Saturday that the local parties could give out nothing at present. The city clerk was sworn by a notary public as to the transcripts filed in the city clerk's office by the company. It is understood that such an action is only necessary in cases where the papers are to be sent out of the country. It was then learned that foreign capital is backing the road and that the delay is caused by the necessity of waiting for the return of the papers from England.

DARING FRENCH AERONAUT NOCQUET WHO MET TRAGIC DEATH THIS WEEK

Paul Nocquet

NEW YORK, April 7.—Paul Nocquet, the daring French aeronaut, who has attained some distinction as a sculptor in this country since he came here from Paris a little more than two years ago, made an ascension Tuesday afternoon in a specially constructed balloon from the Central Union gas work, and his dead body was found the following day on the muddy shore of the creek where the tide had left it. Nocquet had apparently landed safely in his car, and in lighting his way out of the meadows in the darkness had traversed two fifths of the distance from Jones Beach to Amityville, 7 miles, when he died. He had crossed 13 or 14 different islands and had waded or swum through the mud flats between them.

rest and quiet," she said. While all knowledge of a possible operation is still denied at the hospital, everything is in readiness.

COAL CO. SERVES EVICITION NOTICES

Wilkes-Barre, Pa., April 7.—The Pitt side Coal and Iron company is today serving eviction notices upon some of the residents of the village of East Boston and if they have not moved out in a few days will ask the aid of the state troopers in evicting them. There was trouble here.

LICENSE REVOKED

Boston, April 7.—Secretary of State Olin today revoked the license of the Metropolitan Coal company on the ground that it violated the provision of the state law in recently advancing the price of coal \$1 per ton.

DR. DOWIE IS MAD

San Antonio, Texas, April 7.—A Scripps-McRae Press association representative rode with Dowie from the Mexican border to San Antonio to day.

"I will drive my son and wife from the City of God," Dowie declared, after a long tirade. "They are unnatural and possessed of devils. The love of God has died in their hearts. I have been true to every trust placed in me. I taught polygamy is the devil's horn." "You may say this," and the prophet brought his hand down with a tremendous crash. "My accusers will be driven discredited and branded from Zion. Within a week Dowie will again be Zion's leader accepted as a holy man of God and not as a charlatan."

Fatal Fire.

Portland, Ore., April 7.—Fire destroyed the eighth, the top story of the Chamber of Commerce building, and caused the death of Homer E. Hallock, of the Willamette Traction company. Mr. Hallock, despite the efforts of several men, jumped down the light well onto the roof of the central court and was instantly killed. The property loss is estimated at \$100,000, partly insured. The fire broke out in the parlor of the Commercial club. It is said the throwing of a lighted match into some tapestries was responsible for the conflagration, which spread rapidly, causing a panic among the 1,500 employees of the 300 offices in the building. A rush was made for the elevators, stairway and fire escapes. Unable to escape by the usual means of egress, about 15 men and women crept through the windows onto the wide cornice, from which they were rescued by firemen.

YOUNG BOY LOSES HIS LEFT LEG

Falling on the ice seven weeks ago, to injure his left knee, later to hit this injured member against his desk in the school room, George Hook, 14-year-old son of Mr. and Mrs. Daniel Hook of Duncan Falls, yesterday was forced to undergo an operation during which his leg was amputated two inches above the knee.

At the time of the accident on the ice little was thought of the injury. However, after the knee was struck against his desk at school examinations were held. Not long afterwards the knee was injured but improvement failed to follow. After a consultation of physicians it was decided to operate on the victim.

THREE ARE DROWNED

Colar Rapids, April 7.—Shortly before midnight last night George McFarland, Samuel Callahan, Thomas Delaney and Mrs. George Copp were taking a sail on a canal launch on the river. Mr. Copp began rocking the boat, which suddenly capsized before they were to the shore but the other three were drowned. One body was recovered today.

In the town of Tollymore, Eng., a place of 2,000 inhabitants, there is only one physician, and there is no dentist or dentist within nine miles.

The industrial workers of the world got their first Boston local recently, the shirt and cloak makers reorganizing and asking for a charter from it.

Afternoon

MAN WAS BITTERLY DISLIKED

UNKNOWN FELLOW THREW A BOMB
INTO CARRIAGE

Slepzoff Was Hated Because of Reactionary Measures Against
the People.

(Bulletin.)

St. Petersburg, April 7.—While driving through the main streets of Tver this afternoon, a bomb was thrown into Governor Slepzoff's carriage, literally tearing him to pieces. The coachman was injured. The perpetrator, a young man whose name is unknown, was arrested. Slepzoff was probably the most disliked of Russian governors, because of his bitter reactionary measures against the people.

LIVE NEWS OF BUCKEYE STATE

Cleveland, O., April 7.—The first application of the Dever bill, which exempts from prosecution any person who testifies to facts tending to incriminate him in the investigations of alleged violations of the anti-trust laws, will be developed next week in Huron county, where the grand jury will be in session and the operations of the bridge trust will be under investigation. Under the 10-day limit, by which a bill becomes a law without the signature of the governor, the Dever bill will become effective Tuesday.

To Close Pattison Home.

Columbus, O., April 7.—The East Broad street residence of the Pattisons will be closed for the summer. Arrangements have been made for removing the telephones and disconnecting the gas and water. The Misses Pattison, who are still here superintending the final arrangements, will go direct to the Milford home. Impaired nutrition threatens the life of Governor Pattison, according to a statement made by Dr. E. J. Wilson. Further than this Dr. Wilson declined to discuss the governor's ailment.

Twins, by a Caesarian Operation.

Columbus, O., April 7.—By a Caesarian operation, Mrs. Joseph Basch, 703 Franklin avenue, became the mother of a pair of finely developed twins at Grant hospital, a boy weighing 7½ pounds and a girl weighing 7½ pounds. Dr. J. F. Baldwin performed the operation, which consisted of removing the babies through an incision in the abdominal wall. Mrs. Basch is doing nicely and will recover. The operation is the first recorded in Ohio where twins were delivered.

Woman Burns to Death.

Wellston, O., April 7.—Mrs. Margaret Morgan, 62, was burned to death at her home, near Oak Hill. She was in a field near the house burning wild grass when her clothing became ignited, and she ran to the house, a distance of 100 feet. No one was at home, but a neighbor, seeing the woman in flames, rushed to her assistance, but by that time she was so seriously burned that she died a few hours later.

Eighty Students Suspended.

Hamilton, O., April 7.—Eighty students of the Hamilton High school, including most of the senior class and sons and daughters of prominent citizens, were suspended by Superintendent Joyce. The students declared a holiday this week and walked out in defiance of the faculty.

Mayor Johnson's Invitation.

Cleveland, O., April 7.—Mayor Johnson, at a conference here, urged the attorneys for a new electric road, now building between Cleveland and Akron, to take advantage of the Pollock law to enter this city and give a J. C. fare within the city limits.

A schedule is forwarded as one of the foremost further shipping points in the United States, being only second to Charleston, S. C.

QUEER FOOD FOR QUEER PEOPLE.

In Kamchatka the people live in earth-covered pits. Mr. Kennan compares the sound of their language to that of water running out of a narrow mouth job. Their bread is made from the inner bark of the Pine Tree, macerated in water and baked with-out flour. They are a hardy race, the Pine keeping the blood pure and the various organs of the body in a healthy condition. Consumption is unknown among them.

Dr. Leach, a noted specialist in throat and lung trouble, who established a camp for consumptives in the Pine Woods of Maine, and whose remarkable cures there have attracted great attention from the medical world, says that one-half ounce of the Pure Virgin Oil of Pine, mixed with two ounces of glycerine and one-half pint of good whisky, and used in teaspoonful doses, will heal and strengthen the lungs, break up a cold in twenty-four hours and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost.

Inquiry at the prescription department of a leading local druggist elicited the information that the Pure Virgin Oil of Pine is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wrapper, showing the name—'Virgin Oil of Pine (Pure)—plainly printed thereon. Only the cheaper Oils are sold in bulk, but these create nausea, and never effect the desired results.

Next Wednesday evening there will be a class initiation. All members of the Home are specially requested to be present.

Modern Woodmen. Cedar Camp met Wednesday night with a good turnout. Eight applications for membership were acted upon. The monthly report for March showed a total membership of Cedar Camp, 1106 members in good standing, an increase of 29 members since February. Great interest is being taken in the member getting contest now in force in Cedar camp. For each adoption into the society or transfer the neighbor securing the same will have one chance upon the list of prizes which amount to over \$250. If a member secures one adoption or addition to the camp he receives one chance. To the neighbor who secures the greatest number of new members a capital prize will be given valued at \$25. A full list of the prizes can be had at the clerk's office. Neighbors, jump in and hustle.

The committee appointed to arrange for the joint meeting between Cedar Camp and Daisy Camp, Royal Neighbors, will have their report on the next meeting. Neighbors B. F. Armstrong and Louis Spees were reported sick and all neighbors who live in their vicinity are requested to call upon them. Do not forget to call upon neighbors who are reported ill.

A. O. U. W. Golden Rod lodge will give a supper Monday evening at their banquet hall to all members and their wives or sweet

Secretary Root has decided to extend his projected trip to Rio Janeiro to attend the Pan American congress to as to visit Buenos Ayres, Monte Video, Santiago and Lima. As invitations have been extended to him from the representatives of Argentina, Uruguay, Chile and Peru, to visit the capitals of those countries, it would seem to be well that he has accepted them, for, properly utilized, the opportunity which these visits will present, added to those which will confront him at the general Pan American gathering at the capital of Brazil, ought to result in the creation of a much more cordial feeling between the South American governments and that of the United States. Secretary Root ought to be authorized to make it clear to the South and Central American states that the United States is not contemplating any more territorial raids on them like that of Panama, and that it is not our purpose to unduly interfere in their affairs. He ought also try and bring about larger commercial relations between the United States and the republics south of us.

MITCHELL & MIRACLE

AMERICAN OFFICERS OF HIGH RANK AND OTHERS ENDORSE PE-RU-NA.

Prominent People Recommend the Remedy - Pe-ru-na.

Dr. Hartman's World Renowned Catarrh Medicine.

A Remedy for the Grip.

Gen. W. H. Parsons, 925 H St., N. W., Washington, D. C., writes as follows: "Upon the recommendation of personal friends and many strong testimonials to the efficacy of Peru-na in the treatment of the numerous symptoms of the grip with which I have been affected for four months past, I have been induced to undergo a treatment of this justly celebrated formula. "I feel a decided change for the better by its use for one week only, especially in toning up the stomach, and a consequent decided effect upon my appetite. "I therefore feel much encouraged that I am on the road to complete restoration. "My numerous friends in Texas, where I have had the honor to command a brigade of her veteran cavalry in a four year war, may accept this voluntary testimonial to the merit of Peru-na from a sense of obligation for its wonderful efficacy."

Pe-ru-na a Good Tonic.

Gen. M. C. Butler, of South Carolina, writes from Washington, D. C., as follows: "I can recommend Peru-na for dyspepsia and stomach trouble. "I have been using your medicine for a short period and I feel very much relieved. "It is indeed a wonderful medicine, and besides a good tonic."

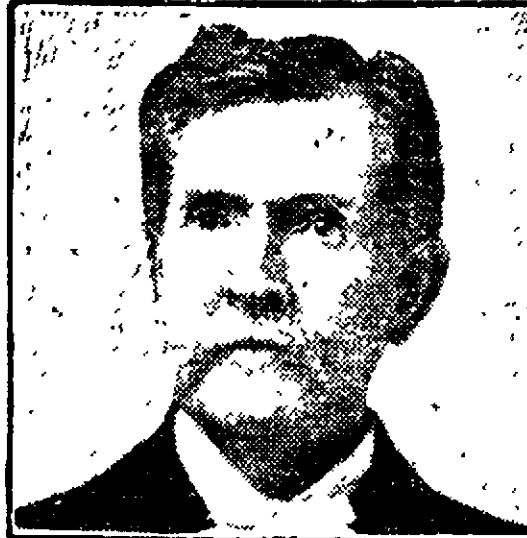

Colds in the Head and Throat.

Chas. W. Bowman, 1st Lieut. and Adj. 4th M. S. M. Cav. Vols., writes from Lanham, Md., as follows: "Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peru-na. "I have been particularly benefited by its use for colds in the head and throat. "I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. "I use it as a preventive whenever threatened with an attack. "Members of my family also use it for like ailments. "We are recommending it to our friends."

For Catarrh of the Stomach. Gen. W. W. Duthell, Washington, D. C., writes: "I have used Peru-na in my family and have found it a valuable medicine and take pleasure in recommending it to all who suffer from catarrh of the stomach or who require a tonic of prompt efficacy."

GEN. KIRBY

Gen. A. M. Legg.

Recommends Pe-ru-na to the Afflicted.

Brig. Gen. D. T. Kirby, Washington, D. C., writes concerning Peru-na, as follows: "Friends of mine having used your Peru-na catarrh cure with good results, I am impressed with its curative qualities, and can recommend it to those who are afflicted."

An Invigorating Tonic.

Rear-Admiral Hichborn, U. S. Navy, Washington, D. C., writes: "After the use of Peru-na for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic."

For Catarrh of the Stomach.

Gen. W. W. Duthell, Washington, D. C., writes: "I have used Peru-na in my family and have found it a valuable medicine and take pleasure in recommending it to all who suffer from catarrh of the stomach or who require a tonic of prompt efficacy."

DEAFNESS CAUSED BY CATARRH—RELIEVED BY PE-RU-NA.

Gen. A. M. Legg, writes from the Savings Bank Building, Washington, D. C., as follows:

"I take pleasure in endorsing the many recommendations I have heard and read of Peru-na, because of having had knowledge of the truth of so many of them."

"We always tell our sick and ailing friends of the remedies that we have learned, from experience, were good for us when ailing in the same way, and we do it as a duty we feel that we owe them."

"Why is it any the less our duty to advise all the people we can when we know of a good and comparatively inexpensive remedy that makes many cures, and benefits in almost all cases?"

"My own little personal experience of being relieved of deafness, caused by a siege of catarrh, warrants me in advising all the afflicted to just try Peru-na."

GEN. YODER

Used Pe-ru-na—Satisfied As to Its Merits—Recommends it to All Sufferers.

Gen. S. S. Yoder, 203 Md. Ave., N. E., Washington, D. C., writes:

"I desire to say that I have found Peru-na to be a wonderful remedy. I only used it for a short time and am thoroughly satisfied as to its merits. I shall gladly recommend it to all sufferers."

For Kidney Trouble, Coughs, Colds and Catarrh.

Gen. A. T. Hawley, 1336 25th St., N. W., Washington, D. C., writes: "I have used Peru-na and find it very beneficial for kidney trouble, and especially good for coughs, colds and catarrh trouble."

Convinced of Pe-ru-na's Merit.

Brig. Gen. J. Floyd King, Washington, D. C., writes:

"I unhesitatingly state that I am convinced Peru-na is a medicine which will effect all that is claimed for its use."

Those desirous of obtaining special directions with regard to the use of Peru-na should write to Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

When Other Remedies Failed Pe-ru-na Proved Efficacious.

Hon. Geo. W. Honey, National Chaplain U. V. U., Ex-Chaplain 4th Wisconsin Cavalry, Ex-Treas. State of Wisconsin and Ex-Q. Master General State of Texas, G. A. R., writes from 1700 First street, N. E., Washington, D. C., as follows:

"I cannot too highly recommend your preparation for the relief of catarrh troubles in their various forms. "Some members of my own family have used it with most gratifying results."

"When other remedies failed, Peru-na proved most efficacious and I cheerfully certify to its curative excellence."

Pe-ru-na, a Standard Treatment for Catarrhal Diseases.

Mr. John C. Nelson, Dayton, Tenn., geologist and mining engineer, while a Captain in the Federal Army during the Civil War, contracted a case of rheumatism. This malady was constant and persistent, inducing the development of other ailments, which also became chronic. After taking a course of Peru-na, Capt. Nelson writes:

"Having been painfully afflicted with chronic rheumatism and the adjunctive complications for many years, and after having received many general and special treatments with only temporary relief, I read your scientific treatise on catarrhal diseases. "At my request you prescribed a special course of the Peru-na remedies, which I closely followed, and am happy to report that my rheumatism and complicated ailments are subdued, and I feel young again at the age of 60 years. "Reason will accept your classification of catarrhal diseases as scientific and true, and the Peru-na remedies as a standard treatment for them. I thank you heartily for your skillful and logical advice."

James J. Osborn, 623 Washatch Ave., Colorado Springs, Colo., has filled all the positions in Knight Templar Masonic Order, was a Mason since 1866, Judge of County Court, Clinton, Mo., and also County Collector of Clinton. He writes:

"A sluggish liver which I had been troubled with for two years made life miserable and I was unable to attend to my business half the time. I lacked energy, had headache most of the time, and my food distressed me and did not seem to do me a particle of good. "Reading of the many cures performed by Peru-na, I decided to try a bottle. Before I had taken many doses I felt better. "I took it as directed for two months when I was a well man."

EFFECT OF THE LATE SESSION - ON STATE PARTY POLITICS

Columbus, April 7—Now that the first session of the Seventy-seventh General Assembly has passed into history, the politicians of both parties are beginning to wonder what effect the record will have upon the politics of the near future in this state. The session, although short, has been one of the most important in the history of the state, and, from a political standpoint, in retrospect presents some peculiar phases to Ohio voters. The Democratic party as represented in the legislature went through the novel experience of having a governor who was incapacitated by illness from attending to legislative business, but who nevertheless exercised an influence over both houses which must be regarded as most extraordinary under the circumstances. There is no doubt that Governor Patterson's personal influence has been most potent of late, despite his illness and practical withdrawal from public affairs. Whatever has been achieved to promote the moral and material welfare of the state has been to a large extent due to this influence; and, on the other hand, whatever has been done to injure the Democracy during the same period will have to be largely borne by the governor, if he should survive and take an active part in politics. Far from being an invalid nonentity during the late session, Mr. Patterson has been a vital force. On account of the narrow division

of parties in the house and senate it will be difficult in coming campaigns to trace partisanship responsibility for important legislation. The parties were so evenly balanced in both houses that his responsibility was never apparent. In the future the Republicans will doubtless charge the Democrats with all the legislation that may prove unpopular, and the Democrats, from their standpoint, will be able to hurl the accusation back on their opponents. So, also, the Republicans will try to claim credit for everything that proves popular, and the Democrats will be able to retaliate in kind. One fact stands out in bold relief, however, namely that Governor Patterson and the Democratic senate have no such apologies to make to the people of Ohio at the close of the first session of the 77th General Assembly as Governor Herrick and his Republican associates were obliged to offer upon the adjournment of the preceding legislature. The Ohio Democracy has not gone backward as an

effect of the late session, but has gained notably in public confidence and the prospect of future victories.

Interest in the congressional situation in Ohio will be revived with the approach of the spring conventions. There are at least three normally Democratic districts that went Republican under the Roosevelt landslide two years ago, but which should now be readily reclaimed. They are the Fifth district, in which "Tim" Ansbury, the Democratic candidate, was victimized by the landslide; the Thirteenth, in which D. R. Clossinger of Marion was defeated; and the Seventeenth, in which ex-Senator J. E. Hurst of Tuscarawas, suffered the same fate. Each of these three Democratic candidates ran far ahead of Parker, the head of the ticket, and missed election by a narrow margin in an unprecedentedly large total vote. The Thirteenth district convention will be held at Bellevue, May 3, and the delegates will be selected April 19. The other two conventions have not yet been called.

There is also a good prospect of electing a Democratic congressman to succeed Taylor in the Twelfth (Columbus) district, and one to succeed Longworth in the First (Cincinnati), so that the chances for material Democratic gains in the next Ohio delegation are more than promising.

Y. M. C. A. Meeting.

The Y. M. C. A. has arranged an attractive program for Sunday afternoon. Prof. W. W. Flora will sing "The Palm" by request, and Mrs. Agnes Cross, King of Granville, a member of the original Cross Sisters' Quartet, will sing two solos, "The Plains of Peace" and "A Clean Heart," by Bysshe.

The address will be given by Rev. H. S. Bailey, pastor of the West Newark M. E. church. His subject will be "Strength and Beauty." It is based upon the story of Joachim and Boaz as told in 1 Kings 7: 22. The address will be of special interest to all Masons, it being originally delivered before a large Masonic gathering. All men are invited to attend. The meeting begins with the musical program at promptly 3 o'clock.

Tonight finishes the ladies races at the Palace.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. SOCIETY

"Sweet recreation, hard what death ensue
But moody and dull melancholy."

Presidents' Day of the Progressive club was observed at the home of Mrs. Edward S. Miller, Wednesday afternoon on Hudson avenue. Mrs. Zentmeyer, the retiring president, spoke in a charming way and called on the new president, Mrs. George B. Stratton, who responded in a gracious manner. At the close of Mrs. Zentmeyer's speech, Mrs. Fred Sites, on behalf of the members of the club, presented her with an immense bouquet of pink roses, showing, in a measure, their appreciation of her past services.

After these ceremonies a clever little play, "The Parliament of Serpents" was given and thoroughly enjoyed by the members of the club and their guests. The characters and the cast were as follows: Mrs. Harry P. Scott, Mrs. Gray; Miss Jennie Irwin, Mrs. White; Miss Josephine Veach, Mary O'Hooligan; Mrs. George Franklin, Trudelle Schmidt; Mrs. William Zentmeyer, Annabelle Darling; Mrs. U. O. Stevens, Maggie Callaghan; Mrs. Judson Lewis, Lydia Ann Porter; Miss Helen Crane, Henrietta Strout.

Immediately after the play an elaborate supper was served. The decorations in the dining room were pink roses and ferns and the subdued glow of candles added to the charming effect. Dainty hand painted place cards designated the places, the name of the guest, surrounded with water color roses, the club flower, and little yellow chickens on one side, and the toasts and those who responded on the other.

Mrs. Alice Little presided as toastmistress, and in a delightful manner called upon the appointed members for the following toasts:

In responding to the toast, "Our Presidents," Mrs. Oscar Stevens said: "As it is impossible to 'gild refined gold, to paint the lily, or add a perfume to the violet,' so today, it seems to me almost equally impossible to say anything concerning 'Our Presidents' which has not already been said upon some previous occasion, and by lips more eloquent than my own."

"We know however, that among some organizations more pretentious than our little club, it is customary not only to give much honor to their present presiding officer but to their past official leaders as well. We hear of 'Past Grand Masters' jewels and banquets, toasts, and laudatory speeches made in their honor, so today we propose to toast not only our present Presidents, or our Presidents present, but all our ex-Presidents as well, whether present or otherwise, and though we may not be able to present them with a 'Past Grand Master's Jewel,' yet we may bestow upon them the jewels of love, friendship, and appreciation of services rendered, and well rendered by them in behalf of the club; and surely no more appropriate occasion could be chosen upon which to do this, than this day which we have named 'The Presidents' Day.'"

For it was—well, several years ago,

In a home not far away

That this annual celebration

Was projected, so they say,

And we hope our friends will pardon us

And take it not amiss

If to treat the subject fairly

We briefly "reminisce."

For memory brings to some of us

Some recollections dear:

For instance, when we travelled

In Italy a year—

And in Florence the magnificent,

That city passing fair

Of course you all remember

How long we lingered there,

And how our halting steps were

Guided

Through its narrow streets and

lanes

By our first presiding officer

With the greatest care and pains.

And today I'd like to speak her

name,

It seems most meet and fit,

And to drink a toast to the mem-

ory

Of far-off Mrs. DeWitt.

So across the continent to her

We send a word of cheer,

And wish the fates had willed it

That today she might be here.

For she did her duty well, and fair

And graced the Presidential chair.

When we returned from Italy

We roamed our native land,

And decided even Italy

Had no scenery so grand.

Mrs. Franklin was our President,

And I think we'll not forget

Her genial ways, and cherry smile,

It lingers with us yet

And then we studied India,

With her great mysterious past.

We scrambled through her temples,

And we climbed Himalaya vast,

And Miss McCune, we well recall,

Quite ably filled the chair,

Presiding most efficiently

The first year we were there.

In responding to one toast, "Our

Guests," Miss Sook spoke most beau-

tifully on hospitality and certainly

demonstrated to the guests how very

welcome they were upon the occasion.

Miss Pfeiffer in a very clever poem

quite Kipling-wise responded to the

toast "Our Club," while Miss Mary

Miller gave in a very pleasing man-

ner a "Look Ahead," referring to the

next year's study.

Miss Florence King, a guest of the

club, gave the following clever toast

in her charming spontaneous manner

which was much enjoyed.

So Here's to Women's Clubs—A Toast

(A million strong is now our boast

Excessive.)

And may the clubs from sea to sea

Just like the present company be

"Progressive."

The guests of the club who enjoyed

this delightful affair were: Miss Eliza-

beth Felix, Mrs. W. M. Baldwin, Mrs.

O. P. Rook, Mrs. C. M. Thompson, Mrs.

Benjamin Franklin, Mrs. Thomas

Montgomery, Miss Florence King,

Miss Mary Miller, Mrs. Harry P. Scott,

Mrs. Gray, Miss Jennie Irwin, Mrs.

White, Miss Josephine Veach, Mary

Trudelle Schmidt, Mrs. William

Zentmeyer, Annabelle Darling, Mrs.

U. O. Stevens, Maggie Callaghan,

Mrs. Judson Lewis, Lydia Ann

Porter, Miss Helen Crane, Henrietta

Strout.

Mrs. George M. Roley entertained

delightfully Thursday afternoon

at her home on West Locust street,

with a progressive party, com-

plimentary to Mrs. Frank Neigh-

bor, who leaves soon for Sharon, Pa.

The prize was won by Mrs. Harry

Fordey. The guests who enjoyed

Mrs. Roley's hospitality were: Mrs.

Frank Neighbor, Mrs. Emmett

Baughner, Mrs. Clarence White, Mrs.

Charles Wesson, Mrs. Harry For-

dey, Mrs. Earl Murphy, Mrs. B. H.

Murphy, Mrs. Roley, Mrs. A. M. Fra-

zee, Mrs. C. C. Cooper, Miss Helen

Scott, Miss Mary Scott, of Marys-

ville; Miss Elizabeth Felix, Miss

Mamie Pigg and Miss Helen Pigg.

Mr. and Mrs. Charles E. Krebs

entertained a few friends informally

Saturday evening at their home on

West Church street.

Miss Ida Moore entertained the

following guests at dinner Sunday

evening, at her home on East

Church street: Miss Ruth Speer,

Miss Mary Neal, Miss Julia McCune,

Mr. Charles Montgomery, Mr. Lee

Wyeth, Mr. Gibson and Mr. Trump.

Miss Jessie King entertained the

Tuesday Afternoon Euchre Club this

week at her home on West Church

street. The prize for points was

won by Mrs. Walter Smith and for

long hands by Mrs. Robbins Hunter.

The substitute guests were: Mrs.

Charles Krebs, Mrs. S. C. Priest,

Mrs. John H. Franklin, Mrs. George

Blood and Mrs. Robbins Hunter.

About twenty friends of Mr.

Lawrence Smith gathered at his

home Tuesday evening and surprised

him, it being his thirty-sixth birth-

day anniversary. Progressive pe-

dros was played and dancing indulged

in. The first prizes were won by

Mrs. C. Squirens and Mr. Charlie

Earler, and the consolation prizes

by Mrs. R. Dolt and John Hughes.

Dainty refreshments were served.

Dr. and Mrs. B. F. Barnes enter-

tained a few friends Tuesday eve-

ning, at their home on West Locust

street, complimentary to Mrs.

Barnes' sister, Miss Marsh, of Shaw-

nee. Euchre was played and appetiz-

ing refreshments were served to

the following: Miss Marsh, Miss

Stella Howard, Mrs. W. T. Moore,

Miss Flesher, of Middleport, Dr. H.

H. Baker, Dr. P. E. Corkwell, and

Mr. Walter Sperry.

Mrs. Emmett Baughner entertain-

ed a few friends informally Friday

afternoon at her home on Hudson

avenue with a thimble party com-

plimentary to Mrs. Frank Neigh-

bor. The guests present were:

Mrs. F. S. Neighbor, Mrs. M. R.

Scott, Mrs. A. M. Frazee, Mrs. Chas.

Elizabeth Felix, Miss Helen Scott,

Miss Flesher, of Middleport, Ohio.

One of the most enjoyable events

of the week was a birthday sur-

prise party given in honor of Em-

mett Edwards, at his home, 53 Wil-

liams street, Wednesday evening.

The evening was spent in music and

games of all sorts. Miss Helen Ty-

rer presented Mr. Edwards a watch-

dog and cuff buttons, in behalf of

the guests. At 10 o'clock supper was

served and covers were laid for

Misses Mary and Carrie Somers,

Fred and Ross Simpson, Jay Con-

ger, Phil Keller Harry Pierce, Will

Johns, Walter Trittip, Walter Ken-

ney, Homer Johnson, Emmett and

Ralph Edwards.

Mrs. Charles Hurlbaugh was the vic-

tim of a pleasant surprise on Wed-

nesday evening at her home on West

Locust street. The occasion was the

celebration of the anniversary of her

birth, given by the Lady Macabees.

Mrs. Hurlbaugh was presented with a

fine trophy vase as a token of esteem

in which she is held by her many

friends. The evening was spent in

games, vocal and instrumental music

At a late hour a three course supper

was served.

Those present were: Miss Maggie

Coakley, Mrs. S. F. Welch, Mrs. De-

France, Mrs. S. H. McNealey, Mrs.

FEW FACTS ABOUT BIG PUGILISTS

OHIO FURNISHES TWO GREATEST FIGHTERS WHILE CALIFORNIA GIVES TWO MORE.

Tom Sharkey Only Man Who Ever Fought Jim Jeffries to Standstill in 25 Rounds.

When a man becomes a leader in the fighting world, he is always the subject of much discussion. Below are given a few facts about the prominent fighters of the day.

James J. Jeffries was born at Carroll, O., in 1875, and stands 6 feet 1 1/4 inches. His weight varies from 210 to 225.

Joe Gans first saw the light of day at Baltimore, Md., on November 25, 1876. He is a lightweight, fights at 133 and is a gentleman of color.

Abe Attell, the recognized featherweight champion, was born February 22, 1883, at San Francisco. He is a Jew. That makes two great men who were born on February 22, Washington and Attell.

Jack Johnson, who poses as the colored heavyweight and who is really a great fighter if it were not for his streak of yellow, claims Galveston, Texas as his birthplace and March 31, 1878 as the date.

Philadelphia Jack O'Brien, whose correct name is Joseph F. Hagen, is a Quaker. He was born in Philadelphia on January 17, 1878.

Thomas Sharkey, who has the honor of being the only man who ever fought James J. Jeffries to a standstill in 25 rounds, was born at Dundalk, Ireland. He is 34 years of age. Sharkey was wise with his money and is perhaps the wealthiest fighter living.

Canton, Ohio, can boast of Gus Rublin, the heavy-weight, as his home. He was born Jan. 8, 1872. He stands 6 feet 2 inches in height.

Battling Nelson, whose sashy name is Oscar Matthew, first saw daylight in Copenhagen, Denmark. He will celebrate his 25th birthday June 5.

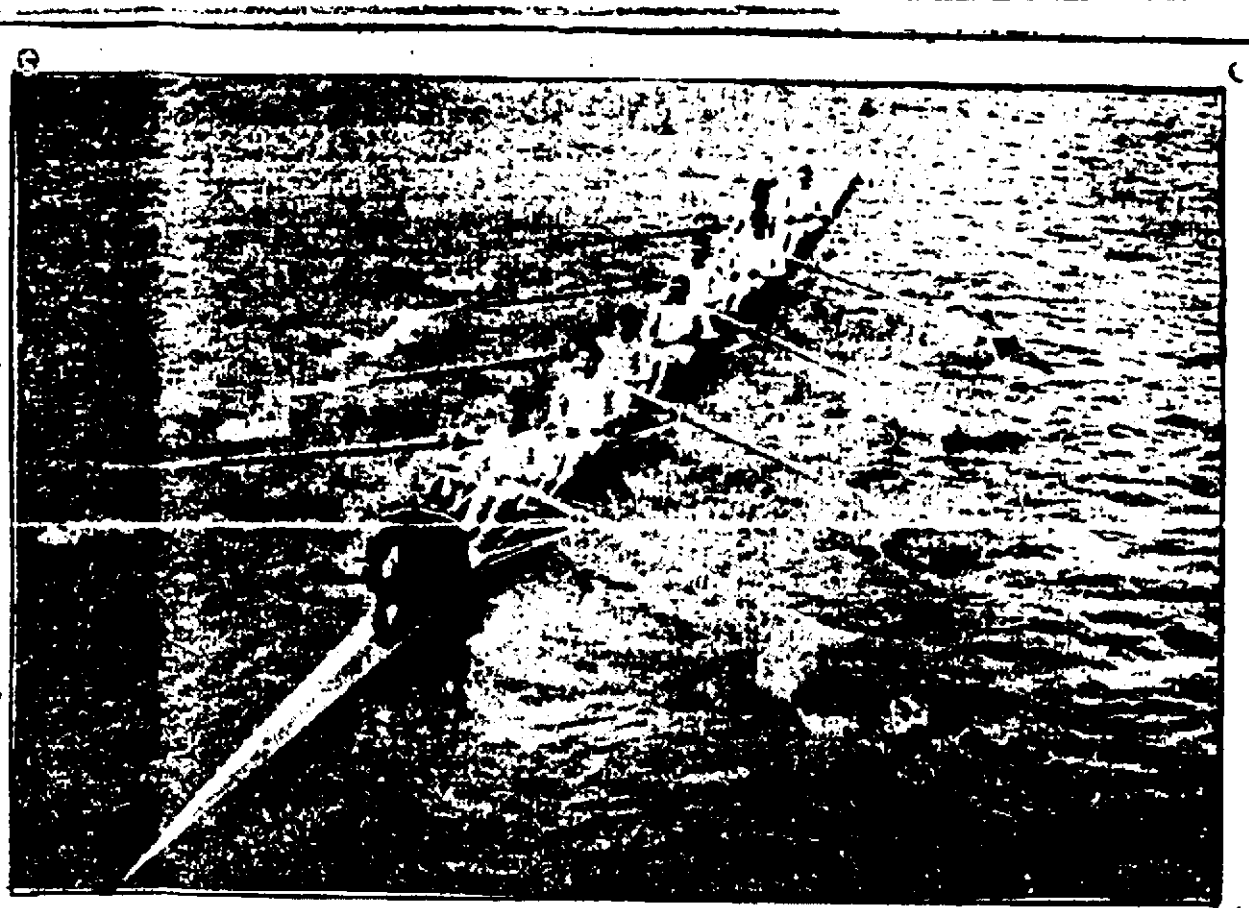

James Edward Britt is a native of San Francisco, Cal., and was born October 8, 1880. He is 5 feet, 6 inches tall.

Tonight finishes the ladies races at the Palace.

Macmonnies has been appointed sculptor of the proposed \$50,000 bronze statue of Joseph Jefferson as Rip Van Winkle, which is to be mounted on a granite pedestal in Central Park, New York.

The distance between New York and San Francisco via Cape Horn is about 14,400 miles. The Panama canal will reduce this to something less than 5,000.

There is an exchange in Paris where one may purchase locks of hair which have adorned the heads of celebrities. Two dozen grown by Lord Nelson recently sold for \$625, and this was considered a rare bargain, since a much smaller number went for \$250. Nobody seems to care much for the hair of the Duke of Wellington, since his hair is not quoted at only \$7.50 a lock. Napoleon, who had some that hung right in the middle of his forehead, is rated at from \$5 to \$10,000, according to demand, and Lord Byron rules fairly steady at \$97.50.

Taylor

The above pictures were taken while the Giants were in training at Memphis and shows a number of the new men at work. The team has concluded its training trip and is now playing exhibition games preparatory to the opening of the real ball season.

An exhibition game was played at Columbus last Wednesday, the Senators giving the New Yorkers the worst scare of the season, holding them to two runs and tying the score in the eighth. The great Matthews opened the game and succeeded in keeping the Senators from scoring. The new men are all showing up well and the managers of the club are well pleased with the outlook. Manager McGraw was asked yesterday, "How do the Giants appear to you for 1906?"

"Exactly as they did in October, 1905," said McGraw, "when they left the polo grounds after winning the last game with the Athletics for the world's championship—all smiles, and as happy a team of ball players as has been organized in the United States since the beginning of organized baseball."

"Do you think they will win the championship for the third time?" "I do; and if they do not, if I am disappointed, if they are disappointed, and if the New York baseball public is disappointed, it will be for the reason that the players will not put forth every honest effort of which they are capable."

"We have a corps of pitchers that is enough to make any baseball enthusiast to gloat. With Matthews, McGinnis, Ames, Wiltse, Taylor, and Ferguson, it is my opinion no team ever has been better equipped in the history of the game. Ferguson looks well and acts well. He will do to retain."

"The infield is the same fast, intelligent, quick-thinking infield that it was last year. The outfielders are as speedy as they were last year. Behind the bat, if anything, the team is better than it was last year."

ACT QUICKLY.

Delay Has Been Dangerous in Newark

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. C. L. Starr, harnessmaker, of 89 Hancock St., Newark, O., says: "My confidence in Doan's Kidney Pills as a kidney and backache remedy is unbounded. In recommending this preparation I speak from experience. For years I was a sufferer from kidney complaint and backache and could get no relief. I had a miserable aching pain in the loins and my back was lame and weak. It was just as bad night or day and when I attempted to sleep or pick up anything a pain would strike me in the back that at most made me fall. If I remained in one position for any length of time and then moved quickly the pain stabbed me like the thrust of a knife. I suffered in this way for years, and all the remedies that I tried failed to help me. I was just as bad as ever when I got Doan's Kidney Pills at Crayton's drug store, and you may believe that I was delighted when the first few doses brought me relief. In less than forty-eight hours the backache was gone and I continued the treatment until entirely free from my old trouble."

Next week at Palace Rink. The final of the ladies races will occur tonight at 9 o'clock and immediately afterwards the prizes will be awarded. This will bring to a close a week full of interest and excitement. Next week will bring forth more surprises for the patrons of the Palace. Next week will bring forth more surprises for the patrons of the Palace. As previously advertised, Wednesday evening, April 11th, will be the

date of the fancy skating contest. This promises to be something out of the ordinary, and every fancy skater in Newark should make it a point to be present. The prizes will be worth competing for.

By special request another "tag night" has been arranged for Friday evening, April 12. The first one was such a success and everyone had such an enjoyable time, the management has complied with the request of the patrons and on Friday evening, April 12th will be the second "tag" night. Don't forget it.

Father Asby, who died the other day in Bern, Switzerland, was "the most miserable miser in all Europe." Since he was 20 years of age, when he inherited a large fortune, he had of us have had any return of kidney trouble since using them.

CAMBRIDGE WINS TODAY'S BIG RACE

London, April 7.—(Bulletin)—The annual Oxford-Cambridge universities boat race on the Thames today was won by Cambridge.

Cambridge thus won her 28th victory today in the annual boat race with Oxford. It was an easy victory for Cambridge, and her men finished in excellent shape. The Oxford men were greatly distressed by the hard pull and four men collapsed after the finish.

The race was rowed this noon under favorable conditions and in the presence of a crowd that broke all records. Cambridge won by five lengths.

The weather was ideal for racing and there was scarcely a ripple on the river. The official time for the race was 19 minutes, 26 seconds.

GRATNOT.

Mr. Will Hursey, a former Gratnot boy, now of Newark, was a visitor here Sunday.

Miss Hazel Lawyer, who has been ill with pneumonia for several weeks, is rapidly recovering.

All will be pleased to learn that Col. Cramer, who removed from Gratnot to Mt. Sterling, has embarked in business and that he is prospering.

After a vacation of a week school began again last Monday.

Mr. Mae Mosman, who was visiting Clay Lick and Newark relatives for a week has returned.

The Epworth League held a meeting of much interest Sunday evening.

Miss Theresa Chappeler is the guest of relatives at Gladenshire, O.

The M. E. Sabbath school elected the following splendid officers last Sunday: Superintendent, Mr. A. Kivner; first supt., Prof. E. S. Hursey; sec., Mr. W. Longstrech; organist, Misses Eura Hursey and Hazel Lawyer; narrators, Master Harold Campbell.

Mrs. E. M. Wiley was called Sunday to Thornville, where her mother is quite ill.

Mr. M. V. Keger and son, Masters Orla and Owen, left last Thursday for Illinois to make that state their permanent home.

Mr. and Mrs. Will Marshhead, formerly of Zanesville, are now residents quite near to Gratnot.

Mr. C. Ward and family removed last week to a farm near Ashbury Chapel.

Prof. F. E. Bresser will attend the Republican Congressional convention to be held at Marietta April 3. He was a delegate from Hopewell township, Muskingum county.

The Gratnot Epworth League held an election Sunday evening last, at which the following excellent officers were elected: President, Mr. P. E. Kemper; first vice president, William Tucker; second vice president, Mrs. Minnie Chappeler; third vice president, Mrs. Elizabeth Campbell; fourth vice president, Mr. L. C. Campbell; secretary, Miss Rosa Kester; treasurer, Mrs. Minnie Hursey; organist, Misses Hazel Lawyer and Eura Hursey. This auxiliary of the M. E. church is in a state most progressive and with such able officers it cannot but remain thus.

The Rough Weave Crash Like Silk Called Bagdad Silk

Is the Spring novelty. It is produced in a silk that is 27 inches wide—all silk with the nub effect shown in the Eastern hand-made silks. All of one color and in softer shadings, such as Nickel-grey, Golden Brown, Pearl Reseda, Alice Blue, and a soft Castor. We have just received this line and are showing it at \$1.00 a yard. These crash silks usually bring \$1.25 a yard, but at this price of \$1.00 a yard we predict a big demand for it.

French Faille Silk
\$1.00 a yard.

This is a beautiful new fabric—while the weave is somewhat on the order of that old-time acceptable fabric, Faille Francaise, it is improved in softness of weave and it produces an elegant sheen in the new soft Spring colorings. We are showing it in five of the principal shades. It is \$1.00 a yard, and is 21 inches wide.

Court House Notes.

Stephen Gary, guardian of Elijah Gary, tendered his resignation to the probate court Saturday. An application was then made for the appointment of another guardian and the hearing was set for next Saturday at 11 a. m.

In the case of the P. C. C. & St. L. Ry. Co. vs. The Lewett Car Company, the defendant has filed its answer. The petition asks that the defendant pay freight charges on several carloads of lumber amounting to \$750.20. The lumber was furnished by the American Lumber Company and it is claimed was to be of the grade called Savannah Merchantable, cut full to sizes given. The defendant says that the lumber was not a it should have been, and that it refused to accept it. The defendant asks to be dismissed with its costs.

Real Estate Sold.

George P. Webb, receiver of the Homestead Building Association vs. Edward F. Whitehead et al, sale of real estate reported made, and that the proceedings are regular, the same was confirmed, and deed and distribution ordered. Webb, Stasel.

Demurrer Filed.

In the case of Ella Gary vs. Stephen Gary and others, Ella Gary, W. H. Jones and G. E. Trump have filed a demurrer to the cross petition for the following reasons:

1. That the cross petition is insufficient in law on its face.

2. That Stephen Gary has not legal capacity to recover upon the cross petition.

3. That the cross petition does not state facts sufficient to entitle the defendant, Stephen Gary, to the relief demanded. W. H. Jones, and W. H. Jones, in prison, and attorney for Ella Gary.

Miss Snyder Files Motion.

In the case of John A. Rochillier Sons company vs. The Shawnee Valley Coal and Iron company, Catherine Snider, executrix, et al, the defendant Catherine Snider, individually and as executrix of the will of Charles Snider, deceased, has filed a motion in the Common Pleas court to dismiss the appeal in this case for the following reasons:

1. That this case, upon the issues made in the pleading and decided by the Court of Common Pleas, between the plaintiff and the other creditors,

and Catherine Snider, individually and as executrix, is not appealable to this court.

2. That this court has no jurisdiction upon the appeal.

3. That no notice of appeal as required by law was given to appeal the judgment of the Court of Common Pleas, in favor of Catherine Snider, individually or as executrix.

4. No bond for appeal was given as required by law.

5. Other reasons appearing upon the face of the record.

WILL ATTACK LEGISLATURE

Liquor Dealers Contend That Recent Session Had no Validity

WILL GO TO SUPREME COURT

STATE ADMINISTRATION AND ALL COUNTIES AFFECTED

By Proceedings Which Will be Filed at Once Says Attorney Dudley Wayne.

Cincinnati, O., April 7.—By brief, the National Association of Liquor Dealers will attack in the Ohio supreme court the legality of the present legislature. The organization will attempt to overthrow the temperance legislation enacted during the session just closed. The statement was made by Attorney Dudley Wayne of the Brewers' Exchange in this city. The attacking brief will consist of allegations that Lieutenant Governor Harris prevented a full and free expression from the senate when he declared the Aikin bill passed; and that the local option bill by its provisions prevents opportunity for free expression by elective franchise.

The protesting brief will be an attack on everything accomplished by the legislature, including the Cincinnati investigating committee and the appropriation bills. Mr. Wayne claims that the adoption last fall of the constitutional amendment providing for election of all state officers in even-numbered years operated to extend the term of the last legislature, and that there should be an election of members of the two houses in 1906, the present legislature, according to his contention, having no standing. The case will involve holders of office in every county in the state, even raising a question as to the validity of the administration of Governor Patterson.

NEITHER VICTORS NOR VANQUISHED

London, April 7.—In the house of lords, replying to a question regarding the Moroccan conference, the undersecretary, Lord Edmond Fitzmaurice, said that the signing of the protocol will occur at an early date. He added that when the papers were laid on the table in the house he thought the members would agree that there had been "neither victors nor vanquished." The agreement, the undersecretary added, is a further guarantee of the maintenance of harmonious action on the part of the powers and a valuable step in the progress of the restoration of the southern shores of the Mediterranean of civilization and order. Great Britain, he said, has strictly bided by the agreement with France in 1904, thus strengthening the good relations between the two countries.

Senator Alger's Health Prompts an Announcement.

Detroit, April 7.—Announcement was made from Senator R. A. Alger's office in this city that he will not be a candidate to succeed himself in the senate when the legislature meets on Jan. 1 next. The announcement took the form of a letter which, it was stated, was received from the senator. It says: "Owing to the condition of my health, I am compelled to withdraw my candidacy to succeed myself in the United States senate. While it is a great sacrifice to sever a connection of many years' standing with the public affairs of my state, that sacrifice has become necessary."

Saloon Fray.

Alton, Ill., April 7.—Christopher Davis, 65, shot and instantly killed Charles Stuckenberg in a saloon, attempted to kill Fred Imminger, the saloonist, and then attempted to kill himself. Davis was arrested and taken to Edwardsville jail. En route he begged Sheriff Crowe to kill him, saying he wanted to be dead.

According to the German East African Journal, the Government has given permission to import provisionally, 2,000 Chinese for employment in railway construction.

ONE WEEK MORE

May Exhaust the Debate on the Railway Rate Bill.

Washington, April 7.—In making an effort to get the senate to agree upon a date for taking a vote on the railroad rate bill Mr. Tillman made the important statement that one week more probably would exhaust the general debate on the measure. He failed, however, to secure the consent of Mr. Aldrich, who said that he would not be willing to agree to vote on the bill until it was more nearly perfected than it now is. There were three speeches on the rate bill. The first of these was made by Mr. Elkins, who, while expressing the opinion that the situation demands legislation, indicated many defects in the pending bill. Mr. Gamble followed in support of the bill and Mr. Keane closed in opposition.

Actress Leaps to Death.

New York, April 7.—Delphine Love, an actress, who said that she was the daughter of the late Dr. J. N. Love of St. Louis, committed suicide by jumping out of the second-floor window of a Seventh avenue hotel. The young woman had gone to the hotel in company with a man, who was arrested after she jumped from the window, but who was later released.

ARGUMENTS IN COSHOCTON TRIAL

MAY CONSUME SEVERAL DAYS IN JUDGE EASON'S COURT NEXT WEEK.

Evidence as to Burning of Hughes Home Goes In—Case Goes to Jury Perhaps Friday.

Coshocton, O., April 7.—When court convened in the Dickerson murder trial Prosecutor Glenn at once announced that the state had no more witnesses to present in rebuttal and that its case was completed.

At this announcement the attorneys for the defense retired for a conference, and when they re-entered court at 9:15 o'clock Judge Voorhes stated to the court that their case also was finished.

Judge Eason then took up a number of deferred rulings and gave his final decisions. Several answers to questions that had been permitted to stand for the time were stricken out and the record was purged of all matters that had been in it in absence during the six weeks of taking testimony.

The judge stated that he was strongly constrained to strike from the record all the testimony with reference to the burning of the Hughes home, as he was still in doubt about its competency. The testimony had been allowed for the purpose of showing motive, but the defense held that it was error and should not have been dragged into the case. The defense seems to have established an alibi for the accused on this charge and consequently it can hardly be held to show motive. The state, however, has enough evidence in on this point to make the matter an open question, and in the end the court permitted the record to remain as it is. An attorney not in the case stated that the state is entitled to this testimony if it shows motive but that otherwise it will be held to be error. The same attorney went on to say that evidently the record is not clear of error, but that so much truth is shown on the main issue that no higher tribunal will be likely to return the case for a new trial should the accused man be found guilty.

The court took a recess while the judge and attorneys on both sides got together and arranged for the arguments. When court reconvened the court thus addressed the jury:

"Gentlemen, the evidence in this case is closed and we have reached the place where the argument on the law is made to the court and the argument on the testimony to the jury. The witnesses have been discharged. Before the argument to the jury can commence the law questions must be determined. This will take until Monday and until then you will be excused under the usual restrictions. This is not an ordinary case. If it were, the arguments could go on at once. It is the most important case that can come before this tribunal for hearing and large questions of law are involved. These must have time for due consideration. Monday morning, then, you will again report at the usual time."

Monday morning the argument on the testimony to the jury is to commence. Attorney Joseph McDowell will open for the state. He will be followed probably by Attorneys Daugherty and Adams for the defense. Attorney Thomas Wheeler will next argue for the state and he will be followed by Judge Roche for the defense. The argument on behalf of Dickerson will now be closed by Judge Voorhes, and then the argument for the state will be closed by Prosecuting Attorney Jas. Glenn. Just how the time has been allotted to the attorneys could not be ascer-

The effect of the troubles between the operators and miners of the anthracite coal mines, is manifesting itself very forcibly throughout the East, but so far as can be learned from the consumer in this city has not as yet been affected. The supply here, however, is very meager, and if the coal strike continues it will only be a matter of a few weeks before the price will be materially increased from the present rate of \$3.50 per ton, though the local retail dealers will New York Herald's cartoon.

position that came out of the west for the arbitration of the differences existing between the soft coal operators who have not yet agreed to the 1903 scale and their miners. The offer of the soft coal operators is identical word for word, except where the term bituminous is substituted for anthracite, with the one President Mitchell presented to the hard coal operators here. There was considerable speculation as to how the miners' leader would receive his own arbitration plan for another field. He was much interested in the news, but maintained his usual silence when asked what he would do. Within an hour of the receipt of the offer from J. H. Winder, the head of the Ohio soft coal operators, he sent a reply to the effect that he had no power to act on the proposition, but would submit it to the international executive board of the union at its meeting in Indianapolis week after next. Mr. Mitchell was asked what he thought of Mr. Winder's literary ability, and he jokingly replied that he "admitted it very much."

INDEPENDENTS TO SIGN SCALE

Miners' Controversy Settled in the Pittsburg District.

MAJORITY GRANTS DEMANDS

President Mitchell Declines to Discuss the Arbitration Proposal of the Ohio Operators — National Executive Board to Consider Proposition—Situation in Hard Coal Fields.

Pittsburg, April 7.—So far as the bituminous coal fields of Pennsylvania are concerned, peace is now assured. Independent operators, who were holding out against granting the advance demanded by the miners, at a meeting here decided to give up the struggle and will sign a scale. All those at the meeting were representatives of operators who had bound themselves not to sign the scale. A number of other members were wavering as to entering the agreement. These latter were not present, but it was assumed that they would sign upon learning of the action of the meeting.

At the conclusion of the proceedings the following statement was given out: "A large number of the independent operators of the Pittsburg district have signified their intention of signing the 1903 scale in justice to their customers. In so doing they fully believe that the action taken by the joint convention in January at Indianapolis was the correct position to take in view of the conditions of the coal trade for the past two years. They believe that conditions have in no way changed since that January convention that would warrant an advance in the wages scale at this time. Mr. Robbins, chairman of the Pittsburg Coal company, at the convention and at the recent convention, stated that the conditions had not justly an advance in the wage scale, the independent operators further believe that in signing this scale it may work an injury to the Pittsburg district. It may have the effect of immediately establishing a differential against the Pittsburg district in favor of the western states, and by increasing the wage scale in a depressed market and against the conditions of the coal trade it may ultimately work an injury to the miners' organization itself."

General Overseer Voliva, Outlines Some of the Charges That Will Be Preferred.

Laredo, Tex., April 7.—First Apostle Dowie arrived from Mexico City this morning and left at once for San Antonio where it is understood, he will remain over Sunday. It is learned that the "prophet" has been in a fine rage since his departure for the north. He declared that before the sun three sets, the Lord will have shown his own appointed way in which blasphemers shall be routed and driven into the sea. Despite the great mental strain, Dowie looks and acts well. He declared the Lord had renewed his strength, that he may give battle to the enemies of God and until he has them beaten he will know no ill health.

Laredo, Tex., April 7.—John Alexander Dowie arrived here on his way to Chicago. He said: "I am threatened with arrest if I dare to go back. Back I go, or die upon the road. You think I am going to allow that kind of thing to go on? Certainly I will go back. If I have done anything wrong, let me be punished. They say I have misused funds. If funds are placed in my hands for a number of years, I have a right to use them, but I don't misuse them. I have \$21,000,000 of estate behind all obligations of Zion after everything is accounted for. They say that this is one of the reasons why I am removed, so-called. Of course I am not removed. How can they remove me? Nobody has in office can remove one higher in office."

Charges Against Dowie.

Chicago, April 7.—In an interview General Overseer Voliva, who has supervised Dowie at Zion City, said that when the former leader of the church returned to Zion City next week, he would be accused of the following: Extravagance of the most sumptuous kind; mismanagement; exaggeration; teachings in private, transgressions and indiscretions. Dowie will be treated fairly, according to Overseer Voliva, and will be given every opportunity to meet every charge and to make reply.

TEN-YEAR-OLD BOY HANGED BY ACCIDENT

Albany, O., April 7.—Ray, Newcomer, the 10-year-old son of Jesse Newcomer, a Pittsburg, Pa. Wayne & Chicago railway engineer, was hung by a spring catenary, hanging in the rear of his home. The boy was excited. The cat had been sent to the rear of his home. The boy was excited, thinking that while playing with a small rope which hung from the cat's tail, he thrust his head through a loop, then accidentally lost his balance, his feet slipping from the steps upon which he was standing.

FIELD SCORES THE TRUSTEES

Legislative Agent of Mutual Makes Some Pointed Charges

IS PREPARED TO TELL TRUTH

SAYS RECORDS OF SUPPLY DEPARTMENT CAN BE SEEN

And Declares He Bribe Nobody at Albany—He Will Explain the Expenditures.

New York, April 7.—Andrew C. Fields, former legislative agent of the Mutual Life Insurance company, arraigns the trustees of that company in a statement issued from his home at Dobbs Ferry, where he now resides. Mr. Fields declares that the Mutual trustees well knew the nature of his duties while he was employed by the company as legislative agent. He says that he came home "prepared to tell the truth, no matter what it hurts, be his position high or low." He denies he gave a bribe to any one, declares the story of the so-called "house of mirth" at Albany to be a malicious libel, and claims that while acting for the Mutual he saved the company many hundreds of thousands of dollars. He says that the records of the Mutual's supply department, which had been reported as missing, are within easy reach, and that they will be forthcoming whenever the trustees want them. He promises to make a full and complete explanation of the manner in which the \$100,000 or more which was paid to him by the expenditure committee was disbursed, and to show that every payment was duly authorized. Mr. Fields says that in all his career at Albany he never had any personal dealings with Andrew Hamilton, long the legislative agent for the New York Life Insurance company.

The statement in which Mr. Fields savagely arraigned the officers of the Mutual with whom he had dealings, follows: "In the first place I never gave a bribe to any one in the whole course of my career. I have come home prepared to vindicate myself completely. In doing so I shall tell the truth which I shall speak full upon whom it may. All of those trustees of the Mutual who are now pointing the finger of scorn at me were aware of all I was doing in connection with legislative work with the Mutual, and when they say that they were ignorant of the character of my work, they say what is untrue. I am here to challenge them in every such statement they have made or have made. I am not an old man like Richard A. McCurdy, whose age is so great that he could not defend himself. While my bodily strength is not what it might be, I am mentally as strong as ever I was and I am determined to vindicate myself in the eyes of the public."

FROM LANDING

Maxim Gorky, Russian Agitator, Will Not Be Debarred.

Washington, April 7.—The announcement from Paris that Maxim Gorky, the Russian revolutionist and author, was on his way to the United States aboard the steamer Kaiser Wilhelm der Grosse, was received with considerable interest at the bureau of immigration, where, it was alleged, nothing was known of his coming until the dispatch was read. It was stated, however, that the bureau is not in possession of such information regarding him as would lead to debar him from landing. Commissioner General Sarant declared Gorky would be treated the same as any other alien coming to the United States unless some evidence was produced which would justify his debarment.

American Fishermen Seized. St. Johns, April 7.—The government was informed that the officials who went to the west coast on the colonial cruiser Puma have already begun proceedings against the American fishermen, who, it is alleged, have invaded the five-mile limit to trawling and have otherwise violated the local fishery laws. Clayton Morrissey, master of the schooner Victor of Gloucester, Mass., and Fred Morrissey, master of the Gloucester schooner Whyanah, were fined \$40 each for using "ball twines" in shore and for fouling the fishing grounds by throwing off overboard. Other prosecutions are pending. The government's prompt action is strongly approved by the residents along the coast.

HOW TO OBTAIN GOOD ROADS

Description of the Road Drag and Its Accomplishments in Detail—Practical Suggestions—Endorsed by the Licking County Good Roads Association.

Good roads are beneficial to everyone, to those who buy, and those who sell, and those who drive for pleasure. Vast sums of money have been expended, often unwisely, in order to secure hard, solid roads the year around. On dirt roads the road grader has been considered the most effective method of obtaining good roads. The dirt is thrown to the middle by the grader, sometimes harrowed and then rolled. The farmer uses this same method when he wishes to put his land in first class condition to hold the moisture and obtain the best results with his crops.

In building a dirt road the object should be to make it shed water instead of holding it; and the simple devices are often the most effective. Not long ago, a plain and simple road drag was introduced in Iowa and Northern Missouri with excellent results. It is the invention (not patented) of D. Ward King, and can be made by any farmer, from a log or from planks. It is inexpensive, and has accomplished results which have been impossible with a road grader.

Mr. King, the inventor of this road drag, says: "A good earth road must be hard, smooth and oval. The old method of working the roads with the big four-wheeled road grader makes the road oval, smooth on the side only, soft and spongy in the center. The grader pushes the soft, loose dirt to the center of the road. This absorbs the water from the first rain, travel cuts it up, it dries full of ruts and very rough—in worse condition than it was before the grader was used."

Mr. King advocates working the roads with the road drag—after a rain, while the surface dirt is in a puddled condition. This method—with the drag—makes the road smooth; it dries hard and is oval over the top of the road bed in a layer, with sunshine, wind and travel, this layer will become hard. Another dragging will put on another layer, and make the roads still harder, smoother and more impervious to rain. In a year or two a surface is put on the road which can hardly be torn up with a pick. The more travel the harder the road. The more rain, the smoother the road, providing the drag is used after the rain. With the old method, when the grader is used, the more rain and travel, the deeper the ruts and the rougher the road.

The drag works as well on the hills as on low ground, as well in clay soil as in black earth. Hundreds of Iowa roads were worked for the first time last year by this inexpensive method.

THE EXPENSE OF THE DRAG.

The expense of running the four-wheeled grader is from \$9 to \$12 dollars a day. It takes from six to eight horses, with from three to four men. The King road drag can be operated by a boy with two horses. The grader can be used only when the roads are dry—a time when most farmers have work to do on the farm. With the King drag the best results are obtained when it is too wet to work on the farm. From one half to one hour's work after a rain will keep one half mile of road in splendid condition.

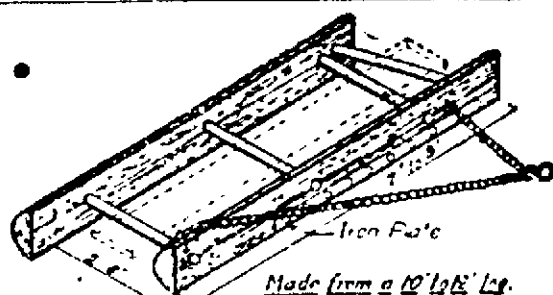

Hit to the drag, so it will pull at an angle of 45 degrees. Drive slow. Ride. Don't walk. You can change the position of the drag by changing your position on the drag. The secret of success is to do a little often. Don't wait before dragging—plowing gives a soft foundation. Never mind the ruts—go ahead and drag; they will disappear.

MAKING THE DRAG.

Any man or boy can make a drag in less than two hours.

Get a log eight feet long and twelve inches in diameter. Split it in halves. Bore three two men holes in each half—one at each end and one in the middle.

Join the halves, split sides forward, with good strong braces, about three feet long; wedge them in securely. If a log is not handy use a twelve-

even plank. Reinforce the back with a "Y" shape.

A loose plank, on which to ride, is placed across the back of the drag. Wrap one end of the chain around an end stake, carry it over the top of the slab out to the double-trees, and then back to the other end of the slab where it should be fastened by pulling an old bolt or spike through one of the links into a hole bored three or four inches from the end of the slab and about its center, up and down. Hitch up and drag—it an angle of forty-five degrees—and you will be surprised at the results.

MUD HOLES.

Anybody can make a mud hole in a tin wash basin. Some earth, sufficient water, a moderate amount of mixing—that is all. But reverse the tin basin—turn it bottom side up and then attempt to make a mud hole. It cannot be done. You can muddy its surface

THEORY OF ROAD DRAGGING.

On these common, every day, apparent-to-all facts, is based the theory and practice of road dragging. Simple? Oh, yes, very simple. So simple as to appear absurd at first glance. But not more simple than effective. The drag upsets the wash basin, nothing more—upsets these mud holes and presents their convex bottoms instead of their concave faces to weather and travel.

Yes, there's one thing more. The longer the period during which the road is carefully dragged after each rain or wet spell, the thicker, harder and more durable will be the crust or shell which protects the road from damage. In order that this shell may be kept intact, it is necessary to drag the road after every rain or wet spell. A well dragged road is not affected by one rain at all, nor is it seriously injured by one wet spell. But if the surface is not made smooth once more before the second rain or wet spell, the second rain will not drain off, a portion of the water will find lodgment on the surface of the road, making small puddles. These small puddles are undeveloped mud holes. Therefore my reiterated of the phrase, "DRAG THE ROAD AFTER EVERY RAIN OR WET SPELL."

NO BEST TIME TO BEGIN DRAGGING.

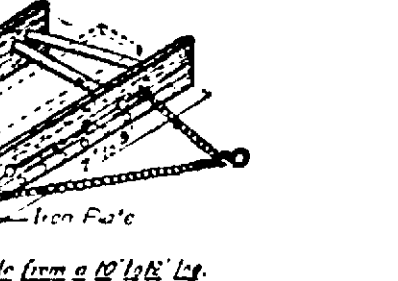

There is no "best season" to begin road dragging or to hold road meetings. Begin to drag right now and drag at every opportunity all winter; your road will be good next spring when "the bottom has fallen out" of the undrained road adjacent.

If you read this in the spring, drag the road at once while the soil is loose and moves easily; you can raise the center quickly and thus get drainage, giving you a dry road all summer and fall.

Or should you be so unfortunate as to remain ignorant of the beauties of the split-log drag until fall, hurry yourself out to the highway for you get may have time to prepare the road for melting snows.

How many, many miles your patient team has splashed through the slush and slop of melting snows, sometimes half knee deep; mostly felloek deep; nasty, chilling; how you hated the stuff and pitied your faithful horses. Have mercy on the dumb brutes. Drag the road in the fall and there will be little winter slush.

The highest point on a dragged road is along its center. This high center is first to peep out through the snow; a dry bridge path. The snow continues to thaw but instead of accumulating in the troughs, as in an unkept road, the melted snow water flows back toward the fence, at right angles to the track, and disappears under the snow banks at the ditches. Again I say: "No particular time is best. Each season has its advantages."

cept to have a slight advantage over mud shovels. On the other hand there is wide choice in conditions.

Ideal conditions for a "Good Roads Meeting" are these: a fine day after ten days or two weeks of almost impassable roads; with the roads still bad, yet easily, even if uncomfortably, traveled by light vehicles or unloaded wagons. Under such circumstances a Good Roads Meeting will be attended by a large number of farmers and business men who are in an earnestly studious frame of mind.

In a sermon on the subject of selecting the best date for a road meeting can be summed up and uttered in two words: "Don't wait." There must be a beginning and a beginning cannot be made too promptly.

TO MAKE A DRAG.

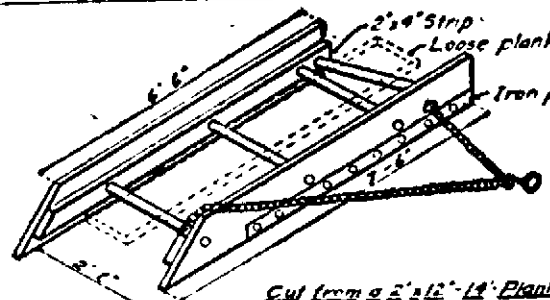

The most common mistakes that I see as I go about are: 1st, making the drag too big and heavy, and 2d,

using timbers with too wide a face on the ground.

The half of a split log is, without any doubt whatever, the best shape for drag material. I have made several splendid ones from the ends of cedar telephone poles. If forced to use plank, select elm or cypress 2x12 of the proper length, and a 2x6 of the same length. Use the 2x6 to reinforce the 2x12 lengthwise of its center so that there will be four inches in thickness of the wood through which to bore the two-inch holes for the stakes which are to join the two slabs. By this arrangement of the plank the shape of the log slab is approximated.

I have seen a great many drags made in numerous different styles, but I find nothing that suits me better than hedge, or straight oak, stakes, money spent on long bolts or even bolts is wasted. If the stakes are properly wedged long bolts are useless.

Instead of eye bolts to fasten the chain simply wrap one end of the chain around an end stake, carry it over the top of the slab, out to the double-trees and then back to the other end of the slab, where the chain

should be slipped through a hole bored in the end of the slab and can be fastened by pulling an old bolt or spike through one of the links. This hole should be bored only three or four inches from end of the slab and about its center, up and down. This is inexpensive, strong, durable and puts the rear end of the chain up out of the way of the dirt as it drifts along the face of the slab.

GOING INTO DETAILS.

Perhaps you will observe that I am going quite thoroughly into minor details. Heretofore I have concentrated all my energy on getting men to take action. We have now gained enough prestige and sufficient support from farmers, farmers and state and county officers, for me to feel that I may spend a little space profitably in an explanation of a few of the finer points of drag making and drag using. In fact I am convinced that such details are really needed and demanded by the thousands who have been dragging the roads for a year and more.

One of the slickest little sleights of drag building is the taking advantage of the twist that will be found in splitting even straight logs. To explain it clearly will, I fear, be difficult. The better mechanical mind you have the more easily will you "catch on."

TAKING ADVANTAGE OF THE TWIST.

After splitting a log, when you place one of the slabs on edge with the face of one end plumb, the face at the other end will not be plumb; will not be at right angles with the floor. By selecting the proper one of the slabs for the front of the drag, this obliqueness can be used to give the ditch end of the drag a chisel like action on the road surface, while the other end of the same slab will have its face perpendicular or plumb. This is a fine point and may be a little hard to see, but it will pay big if you can grasp the idea. The same effect is produced by inserting a three cornered strip of wood under the steel at the ditch end of a plank drag.

I have been on the farm so little the last year and am so busy when I am here that my man has done most of the dragging. He complained recently that I did not get the effect that I did.

When I made an examination I found the three cornered strip had lost off. We put one on and I gave him a few lessons to where to stand and how to drive and we are getting better effects.

SOME SUGGESTIONS.

The best pictures of drags that I know of are the cuts shown here by the courtesy of Prof. Thos. H. McDonald of the Iowa Highway Commission. They show distinctly the setting-back of the rear slab.

But I am going to risk a number of suggestions, namely: the setback should be 14 or 16 inches; only four bolts are needed in the steel; the hole for chain through slab should be close to the end; the "loose plank" had better be a platform of inch boards, cleated in such a manner as to make the cleats (dropped between the stakes) hold the platform on the drag. To do the best work safely the driver should be able to walk all over the drag quickly and securely.

All these cuts would suit me better if they were made other end around; they throw the dirt as does a right handed plow. If you are accustomed to left handed plows, reverse these cuts.

MORE ABOUT GOOD ROADS.

As a general rule, always haul the drag at an angle of 45 degrees, moving the dirt to the center of the road. The action of the drag is covered by four things: 1st. The length of the chain, which is regulated by slipping it backward or forward through the hitch in ditch end of the drag. The length of the chain regulates the hold taken on the earth. To make the chain longer is equivalent to putting weight on the drag. If your drag is too heavy, shorten the chain.

2nd. The position of the snatch hook, which attached to the double trees. To move much dirt or cut small weeds hitch the hook close to the ditch end of the drag and stand as close to the end of the front slab as is safe. Drive very slowly when thus hitched. This one hitch seems to be the hardest to learn. The others suggest themselves.

3d. Position of the driver on the

drag. To move dirt see above. In a soft spot stand on rear slab. On a hard spot stand on front slab. On a drive slowly. If the drag clogs with straw, weeds, sod or mud, step to a point as far as you can get from ditch end of drag. To drop dirt in a low place step quickly from ditch end to the other extreme. To fill a low place or mud hole nicely is the severest test of skill with a drag.

I suspect you will become thoroughly disgusted when you first make the effort. But remember it will not be the fault of the drag if you fail.

4th. Presence or absence of sharpness or dullness of the steel. The steel may project half an inch below the wood at the ditch end of the steel, but should come up flush with the wood at other end of the steel. After a day or so of sunbaked road has been dragged two or five years the soil becomes so tough and putty-like that one must study it closely to know what to do. Sometimes I use sharp edge of steel; sometimes dull edge (holes are bored in both edges of steel so that I can turn it upside down and use same

WEAK BACKS

If not strengthened soon are likely to cause worse trouble. Don't let your back go lame just because it is "only a lame back." At first not much doctoring may be needed. A plaster will probably make it all right. Get one of Grayton's double size and double strength plasters and put it on. It strengthens weak backs and relieves the pain in lame backs. 5c. each at

For in light opera as she did in comedy. This season she has been giving concerts offering selections from the leading light operas and she has been commended by both critics and public for her efforts. She is now offering the entire opera of "Don Pasquale" instead of a number of concert selections. She is accompanied by a strong cast of singers. This light opera has been designated as "A lyric descriptive of a love affair." Katherine, in Shakespeare's "Taming of a Shrew" is subdued by her lord and master, but in "Don Pasquale" the reverse takes place.

Klaw & Erlanger have met with success in the revival they have made of "Humpty Dumpty." Large houses are greeting the production which is given by the original company, with the exception of a few members.

Sidney Rosenfeld's play, "The Optimist," which deals with present day problems, is to be staged within a few weeks by Wm. A. Brady. Mr. Rosenfeld, it will be recalled, wrote "The Vanderbilt Cup," the successful musical farce in which Elsie Janis is appearing.

"The Genius and the Model," the new written by Wm. C. and Cecil DeMille, which was tried early in the season with some success, is to be played by Nat C. Goodwin. Mr. Goodwin will arrive in New York from London Saturday and will begin rehearsals of this farce at once. His leading women will be an English actress, Miss Alexandria Carlisle, and Edna Goodrich will be a member of the cast.

Robert Mantell, who has been so successful this season in his Shakespearean revivals, announces that he is shortly to revive John Stone's play "Metamora," which was originally played by Edwin Forrest.

Thomas Jefferson, son of the late Joseph Jefferson, inaugurated his tour in "Rip Van Winkle" at Minneapolis March 9.

Nat C. Goodwin will soon return from London where he has been playing an engagement and will reopen his American tour at Pittsburgh on April 2. He will make revivals of "An American Citizen," "A Glided Fool," and "The Genius and the Model."

ter seeing the piece performed in London Mr. Frohman decided to present John Drew in this next season.

Daniel Frohman and Joseph Brooks have arranged to produce a new comedy entitled Cousin Louisa, which was written by Frederick Paulding. Charles Cherry for a long time prominent in the east supporting Maxine Elliott will have a leading part in the production.

Stella Mayhew, who in the early part of the season was with Joseph Cawthorne in "Fritz in Tummy Hall," is now enjoying the high tide of popularity in Chicago, where she is appearing in "Coming Through the Rye."

It is said that next season Marie Cahill is to appear in a "straight" comedy. Her vehicle this season, "Moonshine," was an advance toward that step since it contains a consistent plot and a story unlike the usual meager one in musical comedy.

"Ratus Bragg" is the title of a new comedy which Tim Murphy will produce within a short time. It is from the pen of Paul Wilsbach.

Another drama dealing with western life has made its appearance. It is entitled "The Plainsman," and was written by Thomas H. Boardman. It will be used by the new theatrical company of Converse and Peters in a vehicle in which to star Orin Johnson. The production will be made early in April.

A burlesque on "The Squaw Man" is one of the clever things in the new comedy, "Coming Through the Rye," which has met with particular response from the Chicago public. Miss Stella Mayhew who plays one of the leading roles, is said to do some capital work in the burlesque role of the Squaw Man's wife.

Fitzie Schell is the subject of a handsomely illustrated article published in the Metropolitan Magazine for April. The writer contends that "Alle Modiste" in which Miss Schell is starring, is the best comic opera that recent years have produced. He says that while it abandons some comic opera traditions, its story and interest are real as well as modern.

BIG BANQUET TO Y. M. C. A. MEMBERS
WINNERS OF REGENT MEMBERSHIP CONTEST HONORED AT GYMNASIUM.
Friday Night—Judge Seward Toastmaster and Number of Good Toasts Given.
The victorious Reds, the team which won in a walk the membership contest at the Y. M. C. A., just closed, were banqueted in the association gymnasium Friday night, both the Reds and Whites also taking part in the banquet. The affair was a very pleasant one, after the manner had been satisfactorily discussed, many toasts being given. Captain Roll Williams, captain of the victorious team, was presented with a handsome gold medal for having brought in the largest number of members of any individual.
The gym was prettily decorated with bunting. The tables were arranged very cleverly, the big tables where the Reds were seated being spread along the south wall of the gym. Along the west wall stood the table occupied by the Whites, while the Blues' table was on the other side of the room, parallel with the Whites. Every Red turned out. Their table was handsomely set with fine china and linen, and each man found a handsome red carnation at his plate. Judge Charles Seward, the master of ceremonies, was also seated at this table.
The Whites' table was covered with oilcloth and the dishes were of tin. The Blues fared even worse, their table being bare of any covering and wooden dishes being used. All but a half dozen of the Whites were present but only 13 members of the Blues reported to their captain, Paul Helm.
Messrs. Harry P. Scott, Carl Kumber, Paul Helm and O. A. Weller responded to toasts on various subjects, the increase of the membership of the association being the chief subject. Secretary A. A. Elersole, on behalf of the Y. M. C. A. presented to Mr. Williams the beautiful gold medal for winning the membership contest. Mr. Williams brought in 33 members himself. During the contest a total of 181 members were brought in.
The second contest will open on next Wednesday, when an effort will be made to secure a hundred or more members. It is desired that the membership be increased to one thousand, and this is hoped to be accomplished before next fall. Special prizes will be offered. An outing at Buckeye Lake is being planned and it is proposed that each member of the association who brings in one new member will be qualified as a member of the Century Club and entitled to a free trip to the park on the occasion of the outing.
The annual meeting of the Y. M. C. A. will be held Tuesday night and a big reception to the 181 new members will be given Friday night following. After these two events the Century Club contest will commence in earnest.

NEW GAS COMPANY
Plans are under way for the organization of another oil company in Mt. Vernon. The object of the new corporation will be to drill a well in the northeastern part of the city, within the corporation limits, for the purpose of ascertaining whether or not gas is underlying that district. If the venture should prove successful, it is expected that a number of other wells will be located in that vicinity. The promoters of the new company are confident that gas can be found in sufficient quantities to pay good dividends on the investment. Should gas be located in the city it would have a tendency to lower the present rates charged and the increased consumption would allow the stockholders to realize a fair profit on their investments.—Mt. Vernon Banner.
Adventists Must Work Saturday.
Washington, April 7.—Shall the government compel its employees who are of the Seventh Day Adventist faith to work on Saturday? was the question Secretary Bonaparte was called upon to decide in the case of a charwoman who observed Saturday as the day of rest and asked to be excused from work. Secretary Bonaparte directed that a reply be sent stating that the government can not take religious belief into account in arranging its week's work, and is unable to excuse any employee from working when the services are required.
Domestic Tragedy.
New York, April 7.—Walter Foster, 18, shot his 16-year-old wife, Margaret, then turned his revolver against himself. The girl was only slightly injured, the bullet striking her in the arm, but her husband inflicted a fatal wound in his temple. The young wife left him and was living at her mother's home in Brooklyn. Foster went there and tried to induce her to take up housekeeping with him. When she refused he shot her.
Storage of Coal in Sea.
London, April 7.—The British admiralty's small experiments have proved that the storage of coal beneath the sea steadily increases its caloric value, while open air storage decreases it. The admiralty has decided that experiments on a large scale be made with a view to overcoming the difficulty of subsequent drying of coal after it has been stored beneath the water.

Experimental Trip Successful in Every Detail—Plans to Sail to Alaska.
Albion, N. C., April 7.—James Godwin, a youth of only twenty, has invented an airship that is considered marvelous by those who have examined it. The aerial wonder is named the "Compass," but it is also called the "Target" by the inventor because he says that when it leaves one place for another it is sure to go straight to the mark.
A feature of the equipment of the "Compass" is the wireless apparatus—something entirely new on airships. Godwin and Bob Montgomery, an assistant, both understand the art of sending messages through the air. During an experimental trip of the "Compass" the inventor and assistant successfully informed their friends of their arrival at a point they set out to reach by a wireless message from "the decks" of the "Compass."
The distance covered by the ship is said to have been nearly four miles, and was successful in every detail. The "Compass" started from the workshop of the youthful inventor on the outskirts of the town. Rising like a bird it soared over houses and trees, and alighted gracefully at a given place agreed upon before the departure from the starting point.
According to the meager information obtainable the "Compass" is a marvelous invention and promises to be a figure in the airship world at an early date.
The inventor and his friends are planning a trip to Alaska, and the town is awaiting the departure with much interest. A test trip of the "Compass" is also planned for the near future.

AMERICA'S CHAMPION MARKSMAN RECOMMENDS ZELL NERVE TABLETS
TRADE MARK
Sergeant Orr's Letter
Nerve troubles are real. They lead to disastrous results. That may happen to any one. Zell Nerve Tablets feed starved nerves. That's why they restore perfect health. They build nerve strength. They tone up the nervo-spinal system and make rich red blood.
Read what Sergeant Orr, winner of the Sea Girt championship medal for rifle shooting, says about Zell Nerve Tablets:
THE ZELL DRUG CO., Galion, Ohio.
Galion, Ohio, Sept. 18, 1905.
Zell Nerve Tablets—When I began practicing for the annual Sea Girt Summer Rifle Shoot, I was weak, nervous, and far from condition for such a contest. I did not feel my nerves were in the proper tone, and I used it constantly during my practice and during the shoot, and was highly gratified to be able to win the championship of Ohio in this shoot, and to be selected as one of the contestants in the National Military Competition Shoot at Sea Girt. My success I attribute largely to the use of Zell Nerve Tablets, and continued use of them up to and during the Sea Girt Shoot, and use of credit for assisting me very materially in the winning of the title which I now bear, the Champion Military Rifle Shot of the United States. I regard your remedy as a most valuable one, and would advise any one needing a Nerve Remedy to at least give Zell Nerve Tablets a trial.
